

Placement Overview

Your job

Your job is **not** to negotiate the placement.

Your job is to **track what happened, collect the proof, do the next approved step, and keep the placement moving.**

The loop you run every time

SEE → ACT → PROVE → ADVANCE

1. **SEE** — What am I looking at? Which stage is the placement in?
2. **ACT** — What's missing? Do the next step on the card for that stage.
3. **PROVE** — Save the document that proves it happened.
4. **ADVANCE** — Move the stage forward only when the proof is saved.

When a card says  , you **STOP → DOCUMENT → ESCALATE** (card 09).

Placement lifecycle

#	Stage	What happens	Card
1	INTAKE	Something came in	02
2	TERMS	Advance, points, publishing, credit, splits, all confirmed in writing	03
3	CONTRACT	Agreement received and checked against the terms	04
4	ARTIST LOD	The artist signs the SoundExchange LOD first	06
5	SIGNATURE	Only then does the producer sign; then everyone signs	04
6	VENDOR SETUP	Label payment paperwork (start early, at TERMS)	05
7	INVOICE	Sent after the agreement is fully executed	05
8	PAYMENT	Confirmed only by remittance or bank proof	05
9	SOUNDEXCHANGE	LOD submitted and confirmed active	06
10	RELEASE	Tracked the whole time; checked before release	07
11	RECONCILIATION	Amounts received match the agreement	10
12	CLOSEOUT	Every box checked, placement CLOSED	10

The rule that changes the order

The artist signs the SoundExchange Letter of Direction **BEFORE** the producer signs the producer agreement.

Three sentences to remember

- **A request is not proof.** "Sent," "signed," and "OK to pay" are claims. The document is the proof.
- **Never choose between two versions.** If two documents say different things, 🚩 escalate.
- **Never touch money or signatures.** You don't sign, send bank details, or agree to terms.
