

New Placement Intake

Use when: an email, text, file, or message says a producer's beat is being used, or a label/attorney asks about a producer.

Do it: the same business day it arrives.

Step 1 — Check it isn't already in the system

Search the placement tracker for the **artist**, **song**, and any **other spelling** of the title ("Luv U" / "Love You").

- Found → add this email to that placement. **Don't create a second one.**
- Watch for **same title, different song**. Check the artist and date.

Step 2 — Create the placement

Placement ID: **KM-YYYY-NNNN** (year + next number, e.g. KM-2026-0014)
