

Contract & Signature Checklist

KEYMAN RULE: A signature request is not proof of execution.

Part A — Check the agreement (before anyone signs)

Put the agreement next to the confirmed terms (card 03). Check every line **matches exactly**.

- ☐ Correct artist and song
- ☐ Correct producer name (spelled right)
- ☐ Correct advance
- ☐ Correct royalty / points
- ☐ Correct publishing
- ☐ Correct credit
- ☐ Correct company name and payment information
- ☐ Correct signature blocks (right people, right companies)
- ☐ No page or exhibit says "to be provided separately" or is blank
- ☐ SoundExchange LOD included, with the correct payee and %

Anything different or missing → 🚩 **Escalate**. Don't send the producer's signature.

Part B — The LOD comes first

- ☐ **Artist-signed LOD received**
- ☐ **LOD certificate of completion received and checked** (card 06)

Until both boxes are checked, the producer does not sign. Tell the producer and their attorney in writing: *"Please hold signature until the artist's signed LOD and certificate are in."* If anyone pushes for the producer to sign first → 🚩 **Escalate**.

Part C — After the LOD is in: signatures

- ☐ Producer signed (e-signature with certificate, or scanned ink — **not** a pasted image)
- ☐ The other side **confirmed they received** the producer's pages (ask after 2 business days; signed pages have gone missing for weeks)
- ☐ Other producer(s) signed
- ☐ Label / artist signed
- ☐ Every extra signature page signed (guarantee letters, payment letters, exhibits)
- ☐ **Fully executed copy received** — every signature line signed
- ☐ Executed copy uploaded to the placement (03_Agreement/fully-executed/)

What doesn't count

They say	What it actually is
"Sending the contract now"	Nothing yet
"He signed it"	Nothing until the PDF is saved
A copy signed by the producers only	Partially executed, not done
"OK to pay" / "we'll circle back with the executed copy"	Not fully executed
