

Invoice & Payment Checklist

Our job is to **track** payment. The money goes to the producer's company. Vox Nova never receives, holds, or redirects it.

Payment status

```

NOT INVOICED ——— vendor setup in progress
↓
INVOICE READY ——— vendor setup confirmed + ONE payment route + agreement fully executed
↓
INVOICE SENT ——— invoice sent and the label confirmed they received it
↓
PAYMENT PENDING — "OK to pay" / PO issued / "should land by..." ← NOT paid
↓
PAYMENT CONFIRMED remittance or bank record: amount + payer + date
↓
RECONCILED ——— amount = invoice = agreement; saved in the folder
  
```

Part A — Vendor setup (start at TERMS)

- ☐ Asked the label which vendor/payee forms they need (Email 10)
- ☐ Got the forms from the label **this time** (old versions get rejected)
- ☐ Producer completed and signed them (e-signature or ink — no pasted images)
- ☐ Tax form is current and in the payee company's exact name
- ☐ Label confirmed in writing that the vendor record is **approved**

"Looks good to submit" = still in progress.

Part B — One payment route

- ☐ Payee company on the invoice = payee in the agreement = vendor record
- ☐ Only **one** way this money is being paid
- ☐ Label confirmed the route in writing

A second payment letter, a new bank form, or a third party asking to be paid → 🚩 **Escalate.**

Part C — Invoice & payment card (one per payment)

Clocks

- Invoice sent, no receipt confirmation → standard clock (card 08)
- No payment **10 business days** after receipt was confirmed, or on the promised date → Email 02 (Payment Status)
- Co-producer got paid and ours didn't → Email 02 **the same day**

Does NOT count as paid

"OK to pay" · PO issued · "should land Wednesday" · ACH notice with no amount · invoice sent · co-producer paid

Escalate if

amount received $\neq$ invoice · payer unclear · two payment routes · anyone asks you for bank details
