

Release Tracking Checklist

We **track** the release. We never tell a label whether it can release. Songs often come out before the paperwork is done. Our job is to spot that early and escalate.

When to check

- As soon as a release date is known or changes
- Every Monday for any placement with a release date
- **Every day** once release is **10 business days** away or less
- On release day

Release date

Release date	__-__-__ ☐ announced ☐ actual
Where it came from	_____ (save it to 07_Release/)
Business days away	_____

If the release date is unknown: search the artist's socials/DSP pages and ask with Email 05. Record UNKNOWN until you have proof.

Release-ready check

- ☐ Terms confirmed (card 03 all )
- ☐ Every producer identified
- ☐ Publishing confirmed in the executed agreement
- ☐ Points confirmed in the executed agreement
- ☐ Samples cleared / confirmed none
- ☐ Other collaborators identified
- ☐ Artist LOD + certificate received **before** the producer signed
- ☐ Agreement fully executed
- ☐ Payment confirmed — or invoice + vendor + route done, and the manager has accepted in writing that payment will follow release
- ☐ LOD submitted to SoundExchange
- ☐ Documents saved
- ☐ No open escalation

Result

All checked → stage = **RELEASE READY**

Anything unchecked →

BLOCKED — DO NOT MARK RELEASE READY
 Missing: _____ Owner: _____
 Release: ____-____-____ (____ business days)

- More than 10 business days out → keep working the follow-up clocks

© 2026 Keyman Publishing, LLC • Licensed to Vox Nova, LLC • Internal — not legal advice

v1.0 • 2026-09-30

- **10 business days or less** →  **Escalate the same day**
- Already released → mark **RELEASED WITH OUTSTANDING ITEMS**, list them, keep going

Send the label an "open items" email **only if your manager approves it**.
